

Teaching and Learning Policy

Date of Development: April 2020

Date of Review	July 2023
Date reviewed by Governors /trustees	28th September 2023
Cycle of review	Annual

POLICY FOR TEACHING AND LEARNING.

‘Striving to provide a world-class education to create world-class citizens’

Introduction

The Agate Momentum Trust aspires to provide its pupils with a world-class education. Senior leaders have researched and implemented the latest most effective practices from around the UK and across the globe in order to provide the children in the trust with a broad, balanced and ambitious curriculum that puts the child at the heart of its curriculum and learning.

We strive for excellence in all areas:

- Excellence based on a commitment to empowering all the children and young people in our care.
- Excellence in developing leaders of the future regardless of age, ethnicity, gender, sexual orientation, background.
- Excellence derived from the riches brought by diverse families and communities living in a vibrant, global city.
- Excellence in achievement for all, resulting from children receiving an education matching world-class outcomes.
- Excellence in the design of a forward thinking, innovative, curriculum.
- Excellence in a pedagogical approach to teaching, firmly embedded in and informed by research.

Aims

Teaching and learning lie at the very heart of the trust's vision. This policy puts the aims of the trust into classroom effect. The nature and quality of classroom practice is the single most important factor determining pupils' achievement which lies within our control. This policy aims:

- To improve the quality of teaching, learning and pupil achievement.
- To create a culture of growth mindset that encourages openness to self-improvement and reflection for both staff and pupils alike.
- To establish an agreed range of 'good practices' in respect of teaching and learning.
- To ensure consistency across and progression in classroom provision.
- To share good practice and enable the schools to identify aspects of classroom practice and provision which will benefit from further development and support.
- To provide an agreed focus and criteria for monitoring teaching and classroom practice.

This statement of agreed school practices will provide new staff with a clear indication of the trust's expectations.

This policy is arranged under the following headings:

- 1. Learning Environment**
- 2. Classroom management**
- 3. Routines**
- 4. Expectations**
- 5. Presentation of our work**
- 6. Planning**
- 7. Teaching**
- 8. Feedback and Assessment**
- 9. Target Setting**
- 10. Teaching Assistants**
- 11. Guidelines on exercise books**

1. Learning Environment

Creating an ethos and environment in which children can enjoy learning, reflect, improve and grow in confidence is fundamental to learning and therefore to our school.

The physical environment, in which children's learning takes place, should be one which supports and enhances learning. Classrooms should be clutter-free and displays should be learning walls that support pupils' learning.

Each classroom should have the following conditions for learning completed by the end of the first week back:

The Classroom:

- A tidy classroom which is free from clutter
- Learning walls that display the learning journey for each subject and key vocabulary
- Cultural display- classrooms must reflect cultural diversity (photos, languages and maps, self-portraits)
- An 'Over and Above' board
- Visual timetable
- Misconceptions board
- Next Steps board
- E-safety expectations/Pupils have signed AUP
- Reflection area with the school code of conduct and Zones of regulation
- Voice box
- A History timeline
- Posters- School Values, Celebrate and Educate, Childline and Rights of a child
- Class charter which highlights the rights of a child and the actions adults and pupils will take to respect and uphold the rights.
- Fire safety procedures

In each year group, there needs to be one:

- RE learning wall.
- History/geography learning wall

Talk for Writing

- Literacy working wall which should be updated for each genre. The following should be on display: current text, text maps, toolkits, key vocabulary, photos, story plots etc.
- Vocabulary area to display key vocabulary
- Handwriting cards
- Washing line displaying teachers' modelled texts.
- RWI-Alphabet Frieze*/RWI-sounds charts*/ RWI-blue word wallet*where applicable.
- Spellings – jumping orange words/red words/children should have access to RWI phonics sound card

Reading

Reading area checklist link

- A Reading learning wall for Take One Book/RWI
- An inviting book area that promotes a love of reading:
- The books should be well-organised and labelled.
- Book areas should be well-stocked with books and authors appropriate for the year group.

- Selected books facing out displaying the front cover. These should be changed regularly to promote different authors/genres.
- 12 books to read – displayed and a visual system for tracking who has read each book.
- Area for children to recommend/review books.
- Library system to track books taken home and returned.
- Well stocked books/looked after
- Book bag books where applicable
- RWI books where applicable
- RWI alphabet frieze/RWI sound charts/RWI blue word wallet where applicable

Mathematics Display

- A maths working wall which supports the unit of work and display methods being used.
- Key vocabulary.

EYFS

In EYFS learning environments, there are conditions for learning for both the indoor and outdoor spaces.

Indoor Conditions for Learning

- Clearly labelled, tidy, and well-resourced classroom that enables child-initiated learning.
- Resources labelled with pictures
- Shelves shadowed
- Writing opportunities throughout the setting
- Child-level washing lines that show children's work
- Classrooms must reflect cultural diversity i.e.-photos, languages and maps, self portraits
- Visual timetable
- Days of the week
- ICT area / accessibility to the interactive whiteboard
- RWI-Alphabet Frieze*/RWI-sounds charts*/ RWI-blue word wallet.
- Key sight words/spellings.
- Next steps – photos of children with post-it next steps.
- Stock cupboards are organised neatly.
- Lanyards and cue cards for emotional regulation and behaviour reminders.

Talk for Writing

- Literacy working wall which should be updated for each genre and used as a learning wall during the writing process. The following should be on display: current text, text-maps, exemplars, toolkits, key vocabulary, photos, story plots, box plans etc
- Washing line displaying teachers' modelled texts.
- Weekly rhyme displayed and celebrated

Reading

Reading area checklist

- An inviting book area that promotes a love of reading
- The books should be well-organised and labelled
- Books areas should be well-stocked with books and authors appropriate for the year group.
- Selected books facing out displaying the front cover.
- 12 books to read – displayed and a visual system for tracking who has read each book.

- Library system to track books taken home and returned.
- Book bag books
- RWI books

Maths

- A maths working wall which supports the unit of work be taught with methods and key vocabulary.
- Maths should be visible in all areas.

Outdoor Conditions for Learning

- Clearly labelled, tidy, and well -resourced outdoor area where child-initiated play is embedded.
- Resources should be well-looked after and organised
- The **Talk for Writing** text should be visible throughout the outdoor area
- **Mark making throughout setting** - chalks, pens, pencils, large brushes, easels, paper, card.
- **Creative area/ artistic/ musical**- Rolls of paper, rollers, paint, foam, ribbons, clay, sponges, string, wool, pasta, materials for weaving, various musical instruments.
- **Physical development area**-Various balls, bats, bean bags, hoops, quoits, cones, skittles.
- **Growing area.** A place for digging. Areas to grow plants. Wellies, spades, watering cans, wheelbarrows, rakes, pots.
- **Investigation area**- Sand, water, buckets, bug pots, tweezers, magnifiers logs, stones, shells, binoculars, sieves, pipes, funnels, pulleys, wheels, ramps, chimes, windsocks, ribbons, fabrics, kites, bubbles, cameras, clipboards.
- **Constructing area**- Large blocks, crates, woodwork bench, tools, cones, planks, large cardboard boxes, large construction kits.
- Wood work area with real tools
- **Imaginative play area** Space and provision for role play. Dressing up/props
- **Quiet area** An area for children to be quiet, rest and reflect- Seats, cushions, mats, fabrics, picnic table, books, puzzles, clip boards, mark-makers, story tapes, head phones.
- **Wheeled toys area** Various wheeled toys.

2. Classroom Management

Children should be trained in classroom routines relating to tidiness and orderliness.

- They should be trained to collect and replace resources.
- Higher achieving children are used as leaders to support the learning of others in the classroom. Each table should have a coach on it to support the learning during lessons. The coaches should also be trained to go through the previous days lessons with any children who were absent.
- Take children step-by-step through the behaviour policy (see behaviour policy).
- Explain the 'Over and Above' board and reflection requirements.
- Set up class monitors to tidy and care for the room and equipment e.g. pencil pots/books/library.
- Practise lining up.
- Use 1,2, and 3 (silent signals) for moving around the room e.g. travelling from the carpet to chairs in an orderly manner. 1- Stand up 2- Move to the carpet/chair, 3- Sit down.

- Teach children how you want them to stop and listen: use of hand signals for stop and listen. At all times teachers should use non-verbal cues for transitions.
- Show children how you expect them to sit on the carpet/sit in their chairs.
- Teach children to raise their hand if they wish to speak to an adult.
- Groupings of children must be varied throughout the day. For example: mixed-ability groups, pairs or independent. Higher attainers should be used to support lower attaining children.
- Children should be trained to not wander around the classroom.
- Children should be trained to use break times to go to the toilet and **not** learning time.
- After registration, a child should complete the fire-drill head count and add names of absent children onto the board with a final head count number.

Be consistent and continually remind children of your expectations.

3. Routines

In KS1 and KS2, there is a soft entry. There must be an adult in each classroom and work for the children to complete independently. Registration should be completed by 9:00am. All teachers must greet their pupils individually in the morning by standing at the door as children enter the classroom.

At play and lunchtimes, a whistle signifies the end of play. Children will be collected from the playground by their class teacher at the end of every playtime. Teachers and TAs need to ensure their class is lining up following expectations.

At the end of the school day:

- Nursery, reception, KS1 and LKS2 children will be collected from their classroom by a parent or carer.
- In years 5 and 6, parents can choose to allow their child to walk home on their own or arrange to collect them from the playground. Teachers should have permission from parents if children are walking home alone.

In the Foundation Stage or Key Stage 1, if parents are late to collect their children then they are taken to the main foyer where they will be supervised by a teaching assistant.

In Key Stage 2, if parents are late to collect their child, pupils must take themselves to the main foyer and wait for their parents.

4. Expectations

Maintain high expectations of both yourself and all pupils at all times. The adults are the role models for children. They must have high expectations and insist upon the very best of all pupils in relation to:

- **Behaviour and following routines.** Expect children to follow routines and the behaviour policy. Speak to children in a calm, firm manner. Remember we are a **no shouting** school.
- **Dress.** All adults should be smartly dressed. During **PE lessons**, all adults must be dressed in PE kits. Children always participate in PE lessons by wearing a school PE kit if they forget theirs.
- **School Uniform.** It is school policy that children wear a school uniform. If a child does not wear a school uniform, they should be spoken to by the class teacher. If the child continues

to not wear a uniform, the class teacher should inform their phase leader and speak to parents. Head scarves should be school colours as should any bows or headbands.

- **Jewellery.** For health and safety reasons, jewellery/false nails should not be worn at school (small sleepers and studs are allowed). If a child wears jewellery at school, the class teacher needs to ask the child to remove the jewellery and put the jewellery in the school safe. Phone calls home should be made if a child has false nails.
- Make sure **presentation** in books is of a high standard and that children take pride in their work. If not, ensure the child does it again.
- **Time keeping.** If children arrive late in the morning, they should be spoken to (in KS2) and if it continues to happen parents/carers will need to be spoken to (KS1 and KS2).
- **Possessions.** Children are not allowed to bring mobile phones, smart watches or other valuable possessions to school. If they do, they must be switched off and stored securely in the office until the end of the day. Children should take them to the office themselves. Valuable possessions should not be held by the teacher.
- **Quality and amount of work achieved.** Make it clear to children how much they need to do in a certain amount of time. Insist that all pupils complete set work. If they don't, they must stay in at playtime/lunchtime until the work is completed. Presentation should be of a high standard (see presentation rules below).

5. Layout and Presentation

Presentation of our work KS1

- I write with a sharp pencil.
- I write the date on the top line in the margin and underline it using a ruler.
- I miss a line before writing the title and underline it with a ruler.
- I miss a line after the title before starting my work.
- I miss a line and indent when starting a new paragraph.
- I use the handwriting lines correctly.
- If I make a mistake, I cross it out with one neat line. I do not rub it out.
- I do not leave blank pages in my book unless my teacher tells me to.
- I only use colouring pencils when colouring in.
- Only my teacher will write on the cover of my book.

Presentation of our work KS2

- I write with a sharp pencil or blue handwriting pen.
- I write the date on the top line in the margin and underline it using a ruler.
- I miss a line before writing the title and underline it with a ruler.
- I miss a line after the title before starting my work.
- I miss a line and indent when starting a new paragraph.
- I use the handwriting lines appropriately and use joined up writing.
- If I make a mistake, I cross it out with one neat line. I do not rub it out.
- I do not leave blank pages in my book unless my teacher tells me to.
- I only use colouring pencils when colouring in.
- Only my teacher will write on the cover of my book.

In all subjects, ensure that every opportunity is taken for children to work in books rather than using activity sheets.

6. Planning

Teachers are well supported with planning. Each year group plans as a team and an SLT member is available to support. We also offer sessions with consultants for specific subjects.

The school uses the following programmes/associations to support teachers' pedagogy and planning:

- Talk for Writing
- Maths No Problem
- RWI
- Take One Book (Just Imagine)
- RE Newham Agreed Syllabus
- PHSCE Jigsaw
- History – Historical Association
- Geography – Geographical Association
- Projects on a Page – D&T association
- NPW - Computing

1) Long term planning.

- The programmes above provide detailed guidance on: expectations, learning objectives, possible teaching activities, resources, approximate time and progression for all year groups.
- The school has a **curriculum map** that breaks up the curriculum areas into manageable termly themes. This ensures breadth and balance in curriculum provision and progression from term-to-term and year-to-year. These can be found on the Google Drive.
- Knowledge, understanding and thinking skills are woven throughout the curriculum and made explicit on the curriculum maps for each year group. Each subject has a progression document that teachers should look at when planning in any year group to inform them of children's prior learning.

2) Medium term planning

Teachers need to map out the learning journeys for all subjects. The aim of this is to have a clear view of the learning journey the pupils will be taking and to ensure that key knowledge and understanding is taught along with the thinking skills. The learning journey document is a good place to start for brainstorming ideas and ensuring all parts of the learning journey are covered.

Teachers must map out the objectives for each half term. This should be done week by week in order for the intentions on the curriculum map to be achieved. Consideration should be given to creative cross- curricular links and the following:

- Formal assessment in the core areas will be planned for 3 x a year (see calendar).
- Non-core assessments will be planned for at the end of each unit.
- Planned educational visits
- Focus weeks/days – see calendar

3) Short term planning

This includes weekly plans and can be produced straight onto flip charts. When planning, teachers should work backwards, starting with the learning goal.

The **weekly plans/flipchart** should include:

- Learning objectives and success criteria.
- A page with a differentiated activity for any SEN/EAL children who cannot access the whole class activity.

- If a child is working well below the rest of the cohort, teachers may go to a different year group for planning maths/literacy.
- Assessment for Learning strategies-peer/self-assessment.
- Identify the teacher input needed.
- Questioning should be planned.
- Include the role of any additional adults.
- Record any changes that have occurred and whether what was planned was actually covered.
- Plan how teacher's time will be used e.g. to work with a particular group. **Teachers should not simply circulate the class in an unplanned way.**
- Save plans/flip charts on the Google Drive. Files should be well organised into subjects.
- Back-to-back teaching can be used in the afternoons between teachers.
- SMSC. Encourage a sense of awe, wonder and curiosity around learning. Provide reflection time, to be still, think about core values and beliefs. Develop a clear moral sense- an understanding of right and wrong. Foster creativity, imagination, appreciation for the arts. Draw upon the richness and variety of spiritual resources and religious beliefs. Develop an understanding and respect for diversity, equality, inclusion and difference. Appreciate and understand the different cultures, particularly those represented within the school and community. Develop empathy and compassion, and consideration of what it means to be a human.

All resources for planning are on the school's Google Drive.

The following subjects are to be taught:

- Every day - reading, writing, SPAG, maths
- Every Week - science, computing, PE, RE, Music, History, geography, art and DT

Philosophy for Children will be used as a tool to teach R.E and PHSCE units. There is an expectation that one P4C lesson will be taught for every unit in RE and PHSCE.

Collective Worship takes place daily during assemblies.

7. Teaching

Teachers should be up-to-date with current research into teaching and learning. We use Rosenshine's Principles in Action (Tom Sherrington) to inform our practice. Teaching and learning at the Trust should reflect this. Below is a brief summary of the principles that should be used to inform planning and classroom practice. **The ten principles are in bold.**

1. Sequencing concepts and modelling

Effective teachers recognise the need to deal with the limitations of working memory and succeed in breaking down concepts and procedures into small steps.

- **Present new material in small steps with student practice after each step. (2)**
- **Provide models (4)**
- **Provide scaffolds for difficult tasks (8)**
- Limit the amount of material students receive at one time.
- Give clear and detailed instructions and explanations.
- Think aloud and model steps.
- Use more time to provide explanations.
- Provide many examples.
- Re-teach material when necessary.

2. Questioning

Effective questioning lies at the heart of great instructional teaching. This needs to be a highly interactive, dynamic, responsive process.

- **Ask questions (3)**
- **Check for student understanding (6)**
- Ask students to explain what they have learned.
- Check the responses of **all** students.
- Provide systematic feedback and corrections.

Questioning Techniques- (use signal/ pause/insist)	
Cold Call	No hands up or calling out. Ask everyone ☐ select who answers.
No Opt Out	If students get an answer wrong or don't know, go back to them to check that they now know the answer.
Check for Understanding	Ask a selection of students to relay back what they have understood about the question under discussion.
Probing Questioning	Make each question and answer exchange a mini dialogue, probing to explore student's understanding.
Think Pair Share	Allocate talk partners, set a question with a time limit , ask students to think, then discuss, then report back.
Say it again better	Accept students' first half-formed responses but then help them to reframe a better more complete response.
Whole Class Response	Use techniques like mini whiteboards or ABCD fingers to provide simultaneous responses from a whole class.

3. Reviewing Material

A major issue in learning is the inevitable process of forgetting. Unless we review what we have learned, our memory of that information diminishes. Retrieval practice supports building long-term memory and a level of fluency in recall.

- **Daily review (1)**
- **Weekly and monthly review (10)**
- Begin a lesson with a short review of previous learning.
- Re-teach material when necessary.

4. Stages of practice

Lots of practice is necessary to excel. There is a distinction between guided and independent practice.

- **Guide student practice. (5)**
- **Obtain a high success rate. (7)**
- **Independent practice. (9)**
- Provide a high level of practice for all students.
- Guide students as they begin to practice.
- Prepare students for independent practice.
- Monitor students when they begin independent practice.

Teachers are responsible for ensuring the following:

- Confident **teacher knowledge and understanding** of the subject matter to be taught.
- **Pre-planning** of tasks, activities, pupil grouping arrangements and resources.
- A clear statement to pupils of the intentions of the session – LO/SC
- Use of Assessment for Learning.
- Effective teacher input which ensures pupils understand and takes into consideration the different needs of children (use visual images and practical activities to support understanding, ensure that **key ideas and words** are visible and added to learning walls).
- Thorough **resourcing** of activities-with additional resources to support some pupils and stretch others.
- Consideration needs to have been given to the needs of **different** pupils e.g. to ensuring higher attainers are stretched, less confident are supported through scaffolding. Sustained independence should be encouraged at all times.
- **Time targets** need to be set to ensure pace. Children should be reminded of this at appropriate moments.
- **Expectations** of pupil's work needs to be made clear e.g. quantity of work, presentation, and other qualities pupils should be maintaining in their work. Use of the visualiser.
- **Feedback and assessment** which inform both pupils and the teacher of what has been achieved and what needs to happen next. (assessment for learning)

The teacher needs to have planned how they will use **their time** whilst pupils are at work:

- Circulate the room providing immediate feedback on learning with highlighters to address misconceptions.
- Work with particular pupils to support and stretch them on the carpet.
- Assess pupils' progress.

Long-Term Memory

Teachers must take into account how pupils learn and connect new knowledge with existing knowledge. Research shows that there are certain strategies that help to store new learning in the long-term memory. It is expected that teachers will take into account prior learning and help

pupils make links with what they already know. Pupils will not retain new information if they can't make links with prior knowledge.

Below are some of the strategies that can be used to aid new information being stored into the long-term memory:

- **Retrieval** – self-quizzing, low stakes tests, use of knowledge organisers, mind maps.
- **Spaced practice** – studying information more than once but leaving considerable time in between.
- **Interleave** the study of different problem types – alternating between different problem types improves ability to discriminate between problems
- **Elaboration** – expressing new material in their own words. Helps relate it to prior knowledge.
- **Generation** - Attempt to answer a question or solve a problem before being shown the answer.
- **Reflection** – Taking a few minutes to review what has been learned and making connections to life outside the classroom.
- **Calibration** – objective feedback to reveal what you know and don't know. Use of low stakes tests and quizzes. Help to avoid the illusion of mastery.

Growth Mindset

We work hard to encourage growth mindsets in our children by creating a classroom culture where children have self-belief and know how to learn. We use the language of growth mindset and praise the process children have taken rather than the outcome.

Teachers need to also have a growth mindset and be open to self-improvement through reflection on their own practice. We value developing our teachers to be the best that they can be and will support them on this journey. There are many development opportunities and training days available to all staff. Teachers are also given lots of support from SLT. An SLT member/subject leader will be available for all PPA sessions to discuss lessons and will often be in lessons with teachers to give feedback and model good practice.

We use the lesson study approach to support the development of teachers. Each term, staff work in groups of three and focus on writing or maths. They observe each other teaching and reflect on the lesson afterwards. The teachers then all agree on targets to move the teacher forward. An SLT member is also part of the process but takes a back seat.

Instructional coaching is also used to help teachers continually develop their practice. Each teacher is paired with a member of SLT. The SLT member will carry out a ten minute drop-in fortnightly and use this to identify the highest lever to move their teaching on.

Assessment for Learning strategies

Our aim is to create independent learners who can self-assess, make improvements and know how to learn. Teachers must insist on active learning and use assessment for learning strategies to prevent any pupils from becoming passive learners. Teachers must believe that **all** pupils can succeed. We aim to do this by using the following key elements:

The key elements:

- Create a learning culture, where pupils have self-belief and know how to learn and teachers have high expectations and belief that all pupils can succeed
- Use of pupil prior knowledge/misconceptions/gaps at the planning stage
- Pupils knowing learning objectives and co-constructing success criteria
- Discussion about what excellence looks like

- Effective questioning
- Talk partners and classroom discussion
- Effective self, peer and teacher feedback

Other strategies:

- Use of cold tasks to enable the teacher to set targets for pupils that can be measured in the hot task.
- In all subjects, children are asked to explain and reason about their work. We encourage dialogue and create a safe environment to challenge each other.
- Use of white boards to instantly assess understanding.
- Open questioning to address misconceptions/challenge children/ensure all children are on task.
- Use the language of growth mindset.
- Pair talk to assess understanding of all children.
- No hands-up- use cold calling instead as this ensures that all children have to focus on the task and cannot sit back and disengage themselves from the lesson.
- Language progression documents should be used across subjects to help the children's oral skills and verbal explanations.
- Coaches should be used to explain their thinking to their peers during lessons (ask the coach before the teacher).

8. Feedback on Learning

Feedback in the moment

At The Agate Momentum Trust, we believe that live feedback during the lesson, when learning is taking place, has the most impact on children's learning. **Feedback in the moment** is when children are given immediate feedback on their learning by the teacher, TA or peer and can instantly act upon the feedback. In all lessons, adults should help pupils to seek, receive and use feedback, teaching them to check their efforts against success criteria and consider exemplars analysed at the beginning of the lesson. Adults should circulate and give immediate feedback to children. This can also be done through the teacher stopping for a mini-plenary e.g. work is shown under the visualiser and discussed. Improvement recommendations are given then the class use this learning to improve their own work.

In all books, **green highlights** should be used to show success and **pink highlights** to suggest where improvements can be made.

Fundamental principles for in the moment feedback:

- Encourage challenge and struggle as the norm when in the learning process.
- Make learning purposeful where possible.
- Point out misconceptions and use them as opportunities for self-correction.
- Provide feedback opportunities between students.
- Make all feedback task related (LO and SC) rather than ego related (how smart they are).
- Don't give feedback too quickly, too often or at the expense of cognitive demand-allow more struggle, climbing out of the pit, and less reliance on it-but know the student.
- Give and encourage feedback which is just right for each student (not too easy, not too challenging).

Post lesson feedback

Anything which happens after the lesson has questionable value compared to what happens in the moment. It is our intention to attempt to ease teachers' workload by emphasising that often *less is more* when it comes to post lesson feedback. If **'in the moment feedback'** has taken

place in the lesson and pupils have been provided with opportunities to review and improve their work, then a written comment after the lesson is tokenistic and possibly a waste of time. However, if in the moment feedback did not take place, then a comment may be necessary. Only leave a comment if it will move learning forward. Teachers should consider the impact of everything they do and decide its value. Where comments are made, they should focus on moving the learning forward.

It is important that the pupils know that their work has been looked at and that the teachers know the learning that has taken place and any misconceptions that have arisen have been addressed but this can be done in many ways.

Strategies that can be used:

- Checking books for planning purposes and to inform the next lesson
- Tick/highlight to show work has been looked at.
- Whole class feedback at the beginning of a lesson – overview of what went well and how they could improve.
- Misconceptions board – to be worked on until misconception has been addressed.
- Conferencing with students about their work.

Feedback at Agate Momentum Trust Primary School

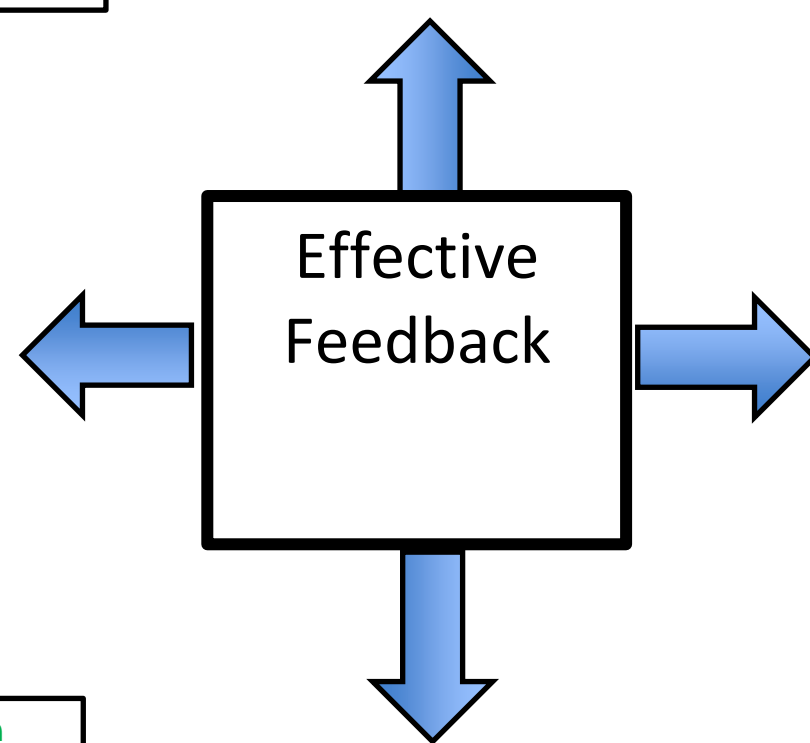

The Agate Momentum Trust identifies feedback as one of the most powerful tools a teacher has with research suggesting it can add +8 months to a child's learning.

In the moment feedback is recognised as most powerful. Highlighting and corrections in books indicates a learning dialogue has taken place.

Successes are highlighted in green and areas where improvements can be made are highlighted in pink.

Clear **models of excellence** are shared with learners, left on display and referenced when providing feedback.

Effective Feedback

Whole class feedback is given at the beginning of a lesson in light of the teacher's findings from looking at work in books.

Pupils are **given time** to respond to feedback. They use a green pen to make changes.

The **misconceptions board** is used to address whole class misconceptions. Teachers will revisit these misconceptions regularly until they are addressed.

1:1 conferencing is used to move children forward.

Misconceptions in books are always addressed this could be through comments, lesson starters, individual feedback, or adapting lesson plans.

Visualiser stops are used when needed and a child's learning is chosen at random to be discussed against LO/SC.

Visualiser stops

are used when needed and a child's learning is chosen at random to be discussed against LO/SC.

Misconceptions in books are always addressed

this could be through comments, lesson starters, individual feedback, or adapting lesson plans.

Feedback in daily writing

- Each unit starts with a cold task. This piece will be marked by the teacher to: inform planning, identify class needs and set individual targets for pupils.
- Teachers and teaching assistants will aim to provide feedback through conferencing to pupils on first 2-3 sentences.
- Teachers and TA's will use the highlighter pen to indicate where improvements need to be made and the child's success on a daily basis and wherever possible with the child during the lesson.
- Prior to the child editing, the teacher will teach to address any issues that have arisen across the class. The child will then edit their work. They will use the green pen to show their improvements.
- Self-assessment and peer assessment can be used to provide feedback to pupils.

Hot Task

- Children will independently write.
- Pupils can self-assess hot tasks by referring back to targets set in the cold task to see if they have progressed.
- Once the hot task writing is complete, the teacher will teach to address common errors and then children will edit to improve their work. This piece is then used to assess writing progress on the assessment sheets at the front of pupil books.

Maths

- All questions that have a set answer will be marked by the teacher, pupil or peer marked within the lesson.
- A highlighter pen will be used to show children where an error has been made during the lesson or before the start of the new lesson.
- Pupils should correct any errors they have made to their work using a green pen.
- Feedback will inform pupils what they have done well and what they need to do next to improve
- Teachers must refer back to subsequent marking to measure the impact their marking is having on the pupils.
- Work must be marked before the next lesson by the child, peer or adult, and where possible, in the presence of the child.
- If children are answering lots of questions incorrectly, they must be identified and receive intervention.

9. Target Setting and mentoring

Target setting is a meaningful process at our school. Children work with the teacher to develop their own targets to work towards every term. Cold tasks are used in most subjects to inform planning and in some cases they are used to create targets for children.

Writing targets

- In writing, targets are written in child friendly language and set following cold/hot tasks. These targets are placed in the front of pupils' books so they can be accessed easily.
- Children assess themselves against their own targets. They underline where they feel they have achieved the target set.
- The assessment key indicators for each year group must be completed after every hot task.

Evaluating our learning

Each term children complete an evaluation of their learning. Each child will identify their successes/achievements and targets. This will then be used for children to refer to during parents' evening. For any children on a care plan, teachers will need to discuss their behaviour using the 'Identifying strengths and targets' sheet.

10. Teaching Assistants

Preparation

It is the responsibility of the teacher to ensure that all teaching assistants are informed about every lesson prior to it. During morning talk throughs, teaching assistants should be present where possible so they are aware of the key learning for each lesson, how concepts will be modelled, any pupils who have been identified as needing additional support and pupils who they will be working with.

If a teaching assistant takes a reading group, they will be provided with supportive planning time for one hour a week.

During Lessons

Teaching assistants should be fully involved with children's learning whether it is on the carpet; monitoring behaviour during lessons; or whilst work at tables is being completed. It is not acceptable for a teaching assistant to be simply sitting and watching the delivery of the lesson. Teachers and teaching assistants must have to hand: a pen for marking what has been achieved, a highlighter pen for immediate improvements and a set of post it notes for recording pupil's comments or next steps. It is the adult's responsibility to ensure that they have these resources in every lesson.

Teaching assistants should:

- Know who all the target children are in the class and they should target them both on the carpet and at tables. Pupil progress forms should be visible in all classrooms to support this.
- Use role play (where appropriate) to pretend not to understand concepts to model learning behaviours, draw out misconceptions and encourage children to explain what they know.
- Use practical resources and visuals to support children's learning effectively.
- Spot misconceptions on the carpet on whiteboards/in talk partner discussions and feed them back to the teacher or address them immediately.
- Use questioning to move learning forward instead of telling children the answers.
- Provide feedback for target mastery children.
- Inform the teacher if many children are misunderstanding a concept so that it can be addressed.
- Live mark effectively in all lessons using highlighter pens and verbal feedback.
- Update the next steps boards during lessons from information gathered when live marking.
- Address misconceptions during the afternoon (where directed).

Transition between classes.

Teaching assistants must make sure that behaviour in corridors and in lines is the best it can be. This must be done through positive praise and consistent reminders about walking sensibly and lining up quietly. Children must be supervised during transition at all times.

In the playground.

All teaching assistants in the playground are expected to join in and play games with children. They should pre-empt misbehaviour.

In the afternoon.

TA's should be involved in RWI 1:1/ reading interventions /addressing the Next Step needs from the morning. In some cases there will be exceptions, where a teaching assistant will need to be in class.

11. Minimum Expectations for Pupil's Books at Agate Moment Trust

- Prepared task sheets/models for writing that are stuck in pupils' books must be aesthetically pleasing (e.g. appropriate border)
- Handwriting must follow the school's policy and children must use the tramlines in literacy books properly.
- Photos of workshops must be accompanied by a written piece from the child explaining what they have learnt/experienced.
- Learning journeys must be evident in books e.g. cold task through to hot task. In science/humanities learning journeys should show children working scientifically/historically/geographically, raising questions and exploring ideas in order to draw conclusions in line with the curriculum.
- Spellings – RWI red words, age related compulsory spellings and spelling rules that have been covered in the spelling programme must be spelt correctly in books. Teachers should highlight, within reason, if spelt wrong (appropriately for each child).
- Writing assessment key indicators in books must be completed after every hot task.
- Maths journals should demonstrate depth of learning. Each journal entry should be individual to each child and reveal their thinking. There should also be a variety of journaling types.
- Live marking/feedback must be evident in books to move learning forwards.
- The feedback policy should be visible in books.
- Phase leaders will monitor books through learning walks, in PPA and discussions with teachers in weekly planning meetings. Subject leads will monitor books with an agreed focus each half term and provide feedback to teachers.
